*Capital Budget Review Status*

All previously approved Capital Equipment requests for Fiscal Years 2007-2009 are being re-reviewed by the County Board (on a line item basis) May 6-8th. CCHHS requests will be reviewed beginning at 1:00PM on May 6th. Final approval decisions will not be made until all departments and elected officials' offices have gone before the County Board for review.

We are required to submit a "new" complete list (along with all of the required backup and justification documentation) to the County Budget Office by 3:00PM, April 24th. The County Budget Office will put together the entire set of materials for the County Board and distribute on April 30th for review in advance of the scheduled meetings.

What we have for you today is a summary of the total list we are resubmitting this afternoon. The list of previously approved and not purchased capital equipment is:

- $3,796,668 (FY07)
- $18,701,162 (FY08)
- $57,599,327 (FY09)

Total **$80,097,157**

Meetings next week are scheduled internally to continue the review and updating of these requests, setting priorities, and preparing our presentation for the May 6th meeting with the County Board.

Final detail lists with backup information will be forwarded to the Directors in advance of that May 6th meeting date.

*Quick Information Technology Update*

Forty-one (41) projects are currently underway, and other than four (4) which are pending approval and funding for equipment, all others are on target. A sampling of the types of projects in progress is:

- Multiple visit processing for registration and charge capture
- EasyScript on line discharge prescription writing which will go live for all inpatient teams on May 1st
* Ambulatory Surgery charge capture and validation which is in final production

Our CIO will give a full update at the next scheduled quarterly update (May 22nd).

*Benchmarking Project*

Full data gathering at the departmental level across the System begins next week and it is expected that the first major outliers will be identified very quickly. Position adjustment plans will begin to be brought forward to the HR Committee in June. Approximately 180 vacant positions have been identified for elimination valued at almost $10M in annual salary for the current fiscal year.

*Media and Public Relations update*

New Procurement Policy for Health System Will Meet Mandate

CHICAGO – The new procurement policy approved by the Cook County Health and Hospitals System Board of Directors will move the health system one step closer to acquiring the tools necessary to improve operations and the delivery of services mandated by the Cook County Board of Commissioners when it created the independent board, according to System officials.

The measure, passed at the April 9, 2009 meeting of the System Board of Directors, will create a centralized purchasing system for all the System healthcare affiliates.

It also includes several provisions that will modernize the procurement procedures currently used by the System’s health facilities and set ethical standards that are designed to preserve the integrity of the System’s purchasing process.

One of the key underpinnings of this new procurement policy is that it provides for the System to be “good stewards of the public trust by seeking to spend public dollars in the most efficient fashion in support of delivering quality healthcare while remaining fully committed to the County’s policy to promote equal opportunity in the procurement process,” said David Small, Interim Chief Executive Officer for the System.

“The System’s procurement policy is consistent with the County’s Ordinance on Procurement and Contracting, including the goal that the participation by minority and women owned businesses be not less than 35% of the total aggregate value of contracts awarded by the System annually,” Small added.

April 20, 2009

Dear Commissioners;

On behalf of the Board of Directors of the Cook County Health and Hospitals System ("System Board"), I am pleased to inform you that, at its meeting on April 9, 2009, the System Board adopted the Procurement Policy for the Cook County Health and Hospitals System ("System"). This action was taken pursuant to the Ordinance Establishing the Cook County Health and Hospitals System ("Enabling Ordinance") which expressly provides that the System Board shall have the authority over all procurement and contracts for the System, and further provides that the System may exercise this authority, in whole or in part, pursuant to its discretion. The adoption of this policy is a significant step toward the Enabling Ordinance’s ultimate goal of providing the System Board with the tools necessary to improve operations in furtherance of the System’s mission of providing quality health care to its patients in as cost effective a manner as possible.

While we believe it is important to inform you of this milestone, we take note that certain representatives of the Minority and Women Owned Business Enterprises ("M/WBEs") currently doing business with the County have raised certain concerns regarding purchasing within the System. At the outset, let me assure you that the System Board is genuinely committed to the County’s policy to promote equal opportunity in its procurement process, as well as to the County’s goal that Protected Class Enterprises shall participate in not less than 35 percent of the annual aggregate value of all contracts awarded by the System. In fact, this commitment is expressly set forth in the System’s new Procurement Policy.

The recent concerns regarding participation by M/WBEs appear to arise in response to the fact that the System has issued a Request for Proposal ("RFP") for the System’s participation in a Group Purchasing Organization. By way of background, one of the missions set forth for the System Board in the Enabling Ordinance is to ensure sound fiscal management of all aspects of the System. In furtherance of that mission, the County Board expressly directed the System Board to engage in joint ventures, or to participate in alliances, purchasing consortia (such as a GPO), or other cooperative arrangements, with any public or private entity, consistent with state law. Moreover, the Enabling Ordinance provides that the System Board shall adopt written rules, regulations and procedures with regard to procurement and contracting functions, which must be consistent with provisions set forth in the Cook County Code on Procurement and Contracts. With the adoption of this new Procurement Policy, the System Board is acting consistent with the County’s Ordinances while taking a major step toward achieving the mission set for it by the County Board.
Thus, in keeping with the powers and responsibilities granted to it by the County Board, the System Board has determined that it is in the best interests of the System and its patients to utilize a GPO for certain purchases. We acknowledge that critics of this decision argue that use of a GPO may not result in the savings anticipated. In this regard, we note that, in the spring of 2008, the County commissioned the Metropolitan Chicago Healthcare Council ("MCHC") to conduct a study comparing the prices paid by the County for approximately 1300 items to the prices charged for such items pursuant to leading GPOs. Upon its conclusion, the MCHS study recommended that the County:

"perform due diligence with the national group purchasing organizations and establish a primary relationship with one GPO... In addition, a relationship with a GPO that is proficient in custom contracting will allow the CCBHS to maintain a degree of flexibility and vendor choice. Many metropolitan, county, and state facilities have GPO affiliations and most GPOs follow GAAP and established purchasing processes and have Historically Underutilized Businesses programs in place."

The MCHC study concluded that the System could experience substantial savings by participation in a GPO. In addition, the System has experienced significant savings through its current participation in a GPO which was initially approved by the County Board. Finally, in this regard, we note that the System’s 2009 budget, as approved by the County Board, incorporates savings the System anticipated realizing through appropriate use of GPOs.

Significantly, there appears to be a general misunderstanding on the part of some of the M/WBE representatives who have raised concerns about the M/WBE participation and the System’s use of a GPO. These representatives allege that membership in a GPO precludes participation by M/WBEs in System contracts let pursuant to the GPO. This is not the case. The fact is that, once the System is part of a GPO, each contract entered into pursuant to that GPO will still be subject to the provisions of the County’s Ordinance on Procurement and Contracts, including the provisions addressing M/WBE participation.

As an initial matter, an M/WBE may apply to be an authorized GPO supplier. The GPOs that have responded to the System’s RFP each have mechanisms in place to assist M/WBEs in becoming suppliers in the GPO. Moreover, the System is committed to assisting the M/WBEs in interfacing with the GPO in this regard. Again, it is significant to note that, once the System selects a prime vendor under the GPO, the System will still have to negotiate a contract with that prime vendor. And, that contract will be subject to the provisions regarding the participation of M/WBE as set forth in the provisions of the County’s Ordinance addressing M/WBE participation. This will include addressing participation by County certified M/WBEs as subcontractors under each contract entered into pursuant to the GPO, on a case by case basis.

The M/WBE representatives also raise a concern that the contract with the GPO should be let pursuant to a competitive bid. Because the GPO contract itself is essentially a contract for services and contains no price term, the System has determined that the contract is not adaptable to competitive bidding. Use of a Request for Proposal in this instance is contemplated by and in accord with the provisions of both the County’s Ordinance on Procurement and Contracting and the System’s Procurement Policy.
With regard to the use of an RFP, and the allegation of a lack of transparency, we wish to clarify that the opening of an RFP is treated differently than the opening of a competitive bid. Both the County’s Ordinance on Procurement and Contracts and the System’s Procurement Policy provide that RFPs are to be opened in the presence of one or more witnesses, but do not require that this opening be in public as with a competitive bid. In fact, the Ordinance prohibits disclosure of the contents of an RFP during the negotiation process. However, the Ordinance does provide that a record of proposals shall be prepared and open for public inspection after award of the contract.

We also note that the M/WBE representatives allege that, under the new GPO contract, the System “is planning to award a three-year annual contract of $165,000,000 worth of product bids to a GPO.” This is misleading. What the System anticipates is utilizing the GPO for the purchase of certain supplies on a case-by-case basis from individual vendors who are participating suppliers in the GPO. The expected value of these purchases is approximately $90,000,000 annually.

The M/WBE representatives also allege that a vendor currently supplying pharmaceuticals to the System through a contract previously approved by the County Board has not met its M/WBE participation goals as agreed to in its contract. This is not true. This vendor has met the participation goals as agreed. We do note that based upon the unique nature of a contract for the purchase of pharmaceuticals, which is subject to stringent manufacture and delivery standards, the County Board approved a reduced participation goal for this contract. The County’s Ordinance expressly provides that where it is determined that the established 35 percent participation goal is not appropriate for a specific contract, appropriate goals may be set. In this instance, the County Board approved a goal of 3 percent M/WBE participation which the vendor is satisfying.

Through the appropriate use of GPOs, the System Board is demonstrating a balance between its commitment to being the best stewards of the public trust by the efficient use of resources appropriated and its commitment to the County’s policy to promote equal opportunity in its procurement process.

I hope that this information has been helpful.

Very truly yours,

David R. Small, FACHE

CCHHS ANNOUNCES INCREASE IN ANTICIPATED DISPROPORTIONATE SHARE (DSH) FUNDING FOR HOSPITAL CARE OF THE UNINSURED

CHICAGO - The Cook County Health & Hospitals System (CCHHS) is pleased to have reached an agreement with the Illinois Department of Healthcare and Family Services (HFS) that will provide CCHHS Disproportionate Share (DSH) program revenues for State Fiscal Year 2009 at an estimated $70 million more than in State Fiscal year 2009.

This funding increase is related to the recently approved intergovernmental agreement, federal and state Medicaid state plan amendment, and state law passed by the General Assembly in 2008 and is intended to support medical care and services by CCHHS for Medicaid and the uninsured. The agreement has been signed by the appropriate County officials and is expected to be signed by the state within days.

These revenues help supplant losses the System endured including the more than $100 million in supplemental Medicaid revenue that was lost in recent years due to federal regulations phasing down permissible reimbursements to public hospitals and the significant growth in the uninsured which resulted in hundreds of millions in cost. CCHHS is the largest provider of Medicaid and uncompensated care in the state by a large margin. The improved government funding “should help the long term viability of the County health System,” Interim Chief Executive Officer David Small said.

-MORE-
Medicaid increase  add one

DSH funding is the singular source of federal funding to assist hospitals with the costs of caring for the uninsured. The Cook County Health and Hospitals System is the top provider of safety net healthcare services in the State of Illinois. In December, 2008, the federal Center for Medicare and Medicaid Services (CMS) approved a Medicaid State Plan Amendment allowing for renewal of the Illinois Hospital Assessment Program bringing billions in funding to Illinois and Illinois hospitals over 5 years beginning July, 2008.

As part of that approval, CCHHS hospitals were approved by CMS to participate in the drawing from Illinois' DSH allocation to help offset costs of caring for the uninsured. For more than a year, CCHHS management has worked intensively in partnership with HFS to seek means to remediate the Medicaid losses incurred by the System over recent years. These DSH monies help do so. As has been true for more than fifteen years, Cook County remains a net contributor to the State of Illinois Medicaid program, adding no net costs to the State of Illinois Medicaid program.

"On behalf of the staff and the residents served by CCHHS, we want to express our gratitude to State Legislative leadership for enacting the enabling legislation in support of the Hospital Assessment and Disproportionate Share Medicaid State Plan Amendments. We thank also Director Maram, HFS staff, the Office of the President of the Cook County Board, the Board of Commissioners, and CMS for their collaboration over many months in seeking means to assist the financing of medical care to those most in need”. Small added.

Finally, CCHHS thanks the Obama Administration and the Illinois Congressional delegation, with special gratitude to Senator Durbin, for their attention in the American Recovery and Reinvestment Act to Medicaid financing, raising state DSH allotments, and other funding streams to improve healthcare delivery and access for those most in need in this time of extraordinary economic crisis.

EXHIBIT A

SCOPE OF WORK

I. EXECUTIVE SUMMARY:

The Cook County Health and Hospitals System (CCHS) is in need of external expertise in the area of executive recruitment to assist with the successful filling of senior and other hard to recruit positions across the System over the course of the next twenty-four (24) month period. Quick Leonard Klepper (QLK) is one of the country’s leading boutique executive search firms specializing in the healthcare industry, consisting of a group of experienced executive search consultants, committed to creating a niche firm that focuses on quality execution for a select number of clients. QLK is located in Chicago and brings a wealth of experience assisting hospitals of all sizes, health systems, and academic medical centers throughout the United States.

II. SERVICES:

An overview of the scope of work to be performed by QLK ("Contractor"), deliverables and anticipated project schedule follows:

At the start of the search, an outline is created detailing deliverables, and dates for those deliverables. In addition, calls regarding the progress of the search are scheduled at regular intervals between the consultant and applicable client parties during the course of the engagement. These calls are a chance for our clients to get feedback on the status of the search, and to make sure that the search is on track.

One of the first steps in the process is to develop a position specification for your review and approval. This validates that what we heard what qualities are essential in your new leader. It also ensures that we share your understanding of the assignment as we begin to network for prospective candidates. Through a collaborative process, we create a blueprint of the "ideal" candidate.

This specification establishes precise short-term and long-term objectives for the incoming executive. The document we produce together is not so much a job description as a statement of the goals and issues that will face the new person. Each QLK job specification includes a "challenges" section to give candidates full appreciation of your situation. The document does, of course, also articulate the professional experiences and the personal characteristics required to meet those challenges.

We find this process helps to build a consensus within your organization about where it is going and what is expected of the successful placement. We are most effective when we can make recommendations and work with you to clarify your objectives and specifications.

We pride ourselves on being good industry strategists. We are able to think "outside of the box" and help you consider new and often unknown alternatives to meet your leadership needs. Developing this search strategy with you is critical because it defines the direction for the entire search process.
RESEARCH

We collect as much written information about your organization as possible, as it helps us understand your organization and culture. At the same time, it helps us to accurately explain the opportunity to interested parties.

Through careful research, we determine which organizations are likely to have the executives who can be exceptional leaders for you. Once we identify those organizations, we then target those types of individuals.

Also, we conduct extensive telephone networking, drawing upon our contacts round the country, including our own proprietary database of more than 50,000 potential candidates.

Our objective is to cast as wide a net as possible to assemble a deep and diverse candidate pool. Our networking always includes a concerted effort to reach interested and qualified candidates. We strive to present a slate of candidates that will represent a variety of backgrounds and experiences.

PROSPECT IDENTIFICATION

Many of the candidates we reach out to, we already know. They are individuals we have known for a long time and whose careers we have followed. We know who has succeeded, and in what type of environment. We know who is ready for a greater challenge and who is not.

Additionally, through careful research, we also determine which organizations are likely to have the executives who can be exceptional leaders for you. Once we identify those organizations, we then target those types of individuals.

Also, we conduct extensive telephone networking, drawing upon our contacts round the country, including our own proprietary database of more than 30,000 potential candidates.

Peer recognition is also a powerful recommendation. If the same name is referred to us multiple times, that is a clear signal. Former executives of organizations are valuable contacts, as well. They know who is open or closed to a possible opportunity and who are “capped” at their current level.

Our objective is to cast as wide of a net as possible to assemble a deep and diverse candidate pool. Our networking always includes a concerted effort to reach interested and qualified candidates. We share your position specification with these candidates, and in turn, gather information regarding their qualifications and level of interest.

The people we target receive phone calls from search firms every week. The name Quick Leonard Kieffer, well known in our industry, gets our calls returned. To get their attention and interest, however, takes a special kind of insight and persuasion.

It is not uncommon to have internal candidates in some searches. These individuals undergo the same screening and assessment process as external candidates, but we appreciate the delicate nature of their situation and work with them accordingly.
To avoid any confusion in the marketplace, we ask that all activity regarding your search be directed through us. We also request that clients refer to us any candidates already known to them or who may present themselves to them directly. This enables us to give you an objective evaluation of all candidates and, therefore, the critical sense of comparison you truly need in your decision-making.

After we have sourced, contacted, developed and interviewed interested individuals, we formulate a slate of the best candidates for the position to be filled. These are presented to the Search Committee in a book, containing a written profile of each candidate along with his/her resume or CV. This book is mailed to each Search Committee Member prior to the book review meeting.

At the book review, each candidate included in the book is discussed by the Search Committee and QLK consultant(s). At this time the Search Committee selects candidates to be interviewed.

PROSPECT EVALUATION

Before committing to a face-to-face interview, we assess motivation and make a judgment as to a candidate's strengths and weaknesses before we share with them confidential information about you. We pride ourselves on being good stewards of our clients' resources.

No matter how impressive a candidate's resume, the only true way to get a feel for his or her individual character is the personal interview. Only the most qualified are interviewed. The interviews are designed to determine if the candidate has the qualities that you need, including the skills, vision, cultural values fit, and confidence to meet the demands required. A written evaluation is prepared detailing this information including a complete personal and salary history.

Our in-person interviews are biographical in nature. We trace a person's career, learning about their accomplishments in each successive role, challenges undertaken, milestones achieved, mistakes made along the way, and lessons learned.

The goal of these evaluations is to make assessments that can be used in greater discussion in client interviews and subsequent references.

We look for the fit between what the candidate has encountered in the past and the challenges of the role under consideration. We seek to identify the patterns in a candidate's career that have led him or her to particular types of challenges and success at certain tasks or roles.

We know that a leader who excels in one organization may not necessarily thrive in another. So, we make sure that we present not only those candidates who have the expertise and experience you require, but also those who are compatible with the unique character of your organization. This understanding makes all the difference in the outcomes of your search.

Finding the "fit" is the most difficult part of the search. Identifying those individuals who look good on paper is one thing, but we have the rare ability to match the intangibles as well. That is why we pay special attention to determining a fit for the client's culture, values, and mission. Equally important is the coupling of a candidate with the politics of the organization.

While all search firms are deluged with people who are in active searches, our role is to deliver the right executives because of their suitability, and not just their availability.
Most of our candidates are employed and quite successful in their current positions. Thus, on behalf of our clients, we take great effort to protect the confidentiality of their interest in your situation. We also take particular care to keep candidates advised of their status, and to handle rejected candidates with dignity and consideration. After completion of these steps, and only then, do we recommend a slate of semi-finalists for the client to invite for interviews.

APPLICANT INTERVIEWS

Round 1 and 2 interviews are facilitated by QLX. The times and locations specified by Cook County Health and Hospitals System are coordinated with the candidates' by our staff in Chicago. We arrange all the candidates travel and accommodation and act as observers during the interviews (unless specified otherwise).

We provide sample, suggested questions tailored to the specific search to help the Search Committee elicit information that will help them to discern the candidates past experience and capability.

Our consultants are always available and regular update calls will be scheduled throughout the process. Search Committee Members will always be well informed and up to date on all information regarding candidates and the search process.

REFERENCING & BACKGROUND INVESTIGATIONS

Early in the process, we learn as much as possible about the candidates without compromising their present situation. Confidential checks are made on education credentials, public document searches, etc. We talk to people we know, and trust us, before we make any assessment as to suitability for your situation.

Through our deep network of contacts we are ensured of in-depth and comprehensive referencing of all candidates. Before we make any expenditure to meet a candidate, we have quietly conducted preliminary referencing with people who know them the best.

Because most of the executives we recommend for your position are employed, clients must respect this fact and work to minimize exposure of candidates throughout the search process. This means that no candidate name or presentation material can be shared with anyone other than those directly involved in the search process.

Once you have selected one or two "final" candidates, we conduct "layered" reference checks with past and current employers. Information is provided to you, and you are always invited to make your own calls.

We believe references are just as important a candidate's performance in a series of interviews. We do not solicit letters of reference. Instead, we speak directly with each candidate's bosses, peers, competitors and subordinates over the course of their careers, asking questions and eliciting comments on themes that we have previously explored with the candidate. We document our thorough reference material in a transcript style report and typically provide detailed commentary on each finalist.

Our service is not just a set of candidates, but also a discussion of market availability, comparative benchmarking, and a comfort knowing that we have helped you find the best executive to meet your needs and goals. We learn what you want, but we also learn what the best candidates want.
In addition to reference checks, each candidate that is presented has an educational check completed to verify his or her educational background. Final candidates are extensively referenced and criminal background checks are completed.

A specific addenda to this main contract will be issued for each individual search project that is assigned and accepted to the Contractor, setting out any position specific terms, conditions, and schedule for that search. There is no limit under this main contract on the number of individual search addenda that might be executed during the term of the contract. The Contractor may decline a search project if the Contractor feels that it does not have the expertise to successfully complete the particular assignment.

Remedies at law for a false statement of material fact may include incarceration and an award to the County of treble damages.

E. It is the County’s policy to make this document available to the public on its Internet site and/or upon request. GC-01 SUBCONTRACTING OR ASSIGNMENT OF CONTRACT OR CONTRACT FUNDS

Once awarded, this Contract shall not be subcontracted or assigned, in whole or in part, without the advance written approval of the Purchasing Agent, which approval shall be granted or withheld at the sole discretion of the Purchasing Agent. In no case, however, shall such approval relieve the Contractor from its obligations or change the terms of the Contract. The Contractor shall not transfer or assign any Contract funds or any interest therein due or to become due without the advance written approval of the Purchasing Agent. The unauthorized subcontracting or assignment of the Contract, in whole or in part, or the unauthorized transfer or assignment of any Contract funds, either in whole or in part, or any interest therein, which shall be due or are to become due the Contractor shall have no effect on the County and are null and void.

Prior to the commencement of the Contract, the Contractor shall identify in writing to the Purchasing Agent the any and all subcontractors it intends to use in the performance of the Contract. The Purchasing Agent shall have the right to disapprove any subcontractor. Identification of subcontractors to the Purchasing Agent shall be in addition to any communications with County offices other than the Purchasing Agent. All subcontractors shall be subject to the terms of this Contract. Contractor shall incorporate into all subcontracts all of the provisions of the Contract which affect such subcontract. Copies of subcontracts shall be provided to the Purchasing Agent upon request.

The Contractor must disclose the name and business address of each subcontractor, attorney, lobbyist, accountant, consultant and any other person or entity whom the Contractor has retained or expects to retain in connection with the matter, as well as the nature of the relationship, and the total amount of the fees paid or estimated to be paid. The Contractor is not required to disclose employees who are paid or estimated to be paid. The Contractor is not required to disclose employees who are paid solely through the contractor's regular payroll. "Lobbyist" means any person or entity who undertakes to influence any legislation or administrative action on behalf of any person or entity other than a not-for-profit entity, on an unpaid basis, or (2), himself. "Lobbyist" also means any person or entity any part of whose duties as an employee of another includes undertaking to influence any legislative or administrative action. If the Contractor is uncertain whether a disclosure is required under this Section, the Contractor must either ask the County, whether disclosure is required or make the disclosure.

The County reserves the right to prohibit any person from entering any County facility for any reason. All contractors and subcontractors of the Contractor shall be accountable to the Director of the Using Department or his designee while on any County property and shall abide by all rules and regulations imposed by the County.
GC-02 PERSONNEL

The quality, experience and availability of personnel employed by the Contractor is of the essence. The Contractor shall provide the County with a list of all key personnel to be used on the project and their designated assignment. The list shall include the qualifications of each person named. The County may at any time request, in writing, the Contractor to remove any of the Contractor's assigned personnel for cause and forthwith furnish to the County other acceptable personnel with thirty (30) days of notification. Notwithstanding the County's approval of Contractor's personnel, the Contractor shall be fully responsible to County for all work performed pursuant to this Contract by Contractor's employees, subcontractors or others who may be retained by the Contractor with the approval of the County.

GC-03 INSURANCE

Contractor shall purchase and maintain at all times during the term of this Contract insurance coverage which is satisfactory to the County and will satisfactorily insure the Contractor against claims and liabilities which arise or could arise because of the performance or non-performance of the Contract. All insurance required hereunder shall meet the requirements of the County's Department of Risk Management and shall name the County as an additional insured unless such designation is unavailable due to commercial practices in the insurance industry or to a particular type of coverage. With the exception of certificates required to be submitted with the Proposal, Contractor shall deliver to the County satisfactory certificates evidencing compliance with this insurance provision prior to commencing performance under the Contract.

GC-04 INSPECTION AND RESPONSIBILITY

At any and at all times during the term of the Contract and at any location where the Contract is performed, the County shall have a right to inspect any Deliverables provided in carrying out this Contract. The Contractor shall be solely responsible for the quality and standards of all Deliverables furnished under this Contract. Deliverables may be rejected by the Purchasing Agent and/or the Director of the Using Department if they fail to meet Contract requirements or are provided in a manner which does not meet Contract requirements. In the event of such rejection, Deliverables shall be replaced and/or re-performed by the Contractor promptly and at no additional cost to the County. Any Deliverables rejected shall be removed within a reasonable time from the premises of the County at the entire expense of the Contractor, after notice has been given by the County to the Contractor that such Deliverables have been rejected.
GC-05 INDEMNIFICATION

The Contractor covenants and agrees to indemnify and save harmless the County and its commissioners, officials, employees, agents and representatives, and their respective heirs, successors and assigns, from and against any and all costs, expenses, attorneys fees, losses, damages and liabilities incurred or suffered directly or indirectly from or attributable to any claims arising out of or incident to the performance or nonperformance of the Contract by the Contractor, or the acts or omissions of the officers, agents, employees, contractors, subcontractors, licensees or invitees of the Contractor. The Contractor expressly understands and agrees that any performance bond or insurance protection required of the Contractor, or otherwise provided by the Contractor, shall in no way limit the responsibility to indemnify the County as hereinabove provided.

GC-06 PAYMENT

All invoices submitted by the Contractor shall be in accordance with the cost provisions contained in the Contract Documents and shall contain a detailed description of the Deliverables for which payment is requested. All invoices shall reflect the amounts invoiced by and the amounts paid to the Contractor as of the date of the invoice, and shall be submitted together with a properly completed County Voucher form (29A). Invoices for new charges shall not include "past due" amounts, if any, which amounts must be set forth on a separate invoice. No payments shall be made with respect to invoices which do not include the County Voucher form or which otherwise fail to comply with the requirements of this paragraph. Contractor shall not be entitled to invoice the County for any late fees or other penalties.

GC-07 PREPAID FEES

In the event this Contract is terminated by either party, for cause or otherwise, and the County has prepaid for any Deliverables, Contractor shall refund to the County, on a prorated basis to the effective date of termination, all amounts prepaid for Deliverables not actually provided as of the effective date of the termination. The refund shall be made within fourteen (14) days of the effective date of termination.

GC-08 TAXES

Federal Excise Tax does not apply to materials purchased by the County by virtue of Exemption Certificate No. 36-75-4038. Illinois Retailers’ Occupation Tax, Use Tax and Municipal Retailers’ Occupation Tax do not apply to deliverables, materials or services purchased by the County by virtue of statute. The price or prices quoted herein shall include any and all other federal and/or state, direct and/or indirect taxes which apply to this Contract. The County’s State of Illinois Sales Tax Exemption Identification No. is E-9998-2013-05.
GC-09 PRICE REDUCTION

If at any time after the contract award, Contractor makes a general price reduction in the price of any of the Deliverables, the equivalent price reduction based on similar quantities and/or considerations shall apply to this Contract for the duration of the Contract period. For purposes of this Section GC-09, Price Reduction, a general price reduction shall include reductions in the effective price charged by Contractor by reason of rebates, financial incentives, discounts, value points or other benefits with respect to the purchase of the Deliverables. Such price reductions shall be effective at the same time and in the same manner as the reduction Contractor makes in the price of the Deliverables to its prospective customers generally.

GC-10 CONTRACTOR CREDITS

To the extent the Contractor gives credits toward future purchases of goods or services, financial incentives, discounts, value points or other benefits based on the purchase of the materials or services provided for under this Contract, such credits belong to the County and not any specific using department. Contractor shall reflect any such credits on its invoices and in the amounts it invoices the County.

GC-11 DISPUTES

Any dispute arising under the Contract between the County and Contractor shall be decided by the Purchasing Agent. The complaining party shall submit a written statement detailing the dispute and specifying the specific relevant Contract provision(s) to the Purchasing Agent. Upon request of the Purchasing Agent, the party complained against shall respond to the complaint in writing within five days of such request. The Purchasing Agent will reduce his decision to writing and mail or otherwise furnish a copy thereof to the Contractor and the Director of the Using Department. The decision of the Purchasing Agent will be final and binding. Dispute resolution as provided herein shall be a condition precedent to any other action at law or in equity. However, unless a notice is issued by the Purchasing Agent indicating that additional time is required to review a dispute, the parties may exercise their contractual remedies, if any, if no decision is made within sixty (60) days following notification to the Purchasing Agent of a dispute. No inference shall be drawn from the absence of a decision by the Purchasing Agent. Notwithstanding a dispute, Contractor shall continue to discharge all its obligations, duties and responsibilities set forth in the Contract during any dispute resolution proceeding unless otherwise agreed to by the County in writing.

GC-12 DEFAULT

Contractor shall be in default hereunder in the event of a material breach by Contractor of any term or condition of this Contract including, but not limited to, a representation or warranty, where Contractor has failed to cure such breach within ten (10) days after written notice of breach is given to Contractor by the County, setting forth the nature of such breach.

In the event Contractor shall breach any material terms or conditions of this Contract on more than one occasion during any twelve month period during the term hereof, or in the event Contractor expresses an unwillingness or inability to continue performing the Contract in accordance with its terms, the County may, at its option, declare the Contractor to be in default and the County shall be entitled to exercise all available remedies including, but not limited to, termination of the Contract, without affording the Contractor further opportunity to cure such breach. Failure of County to give written notice of breach to the Contractor shall not be deemed to be a waiver of the County’s right to assert such breach at a later time, should the Contractor commit a subsequent breach of this Contract.
County shall be in default hereunder if any material breach of the Contract by County occurs which is not cured by the County within ninety (90) days after written notice has been given by Contractor to the County, setting forth the nature of such breach.

**GC-13 COUNTY’S REMEDIES**

Following notice of material breach to Contractor, the County reserves the right to withhold payments otherwise owed to Contractor until such time as Contractor has cured the breach.

If the Contractor fails to remedy a material breach during the ten (10) day cure period pursuant to General Condition GC-12, Default, or if Contractor commits a subsequent material breach within a twelve month period or expresses an unwillingness or inability to continue performing the Contract in accordance with its terms, the County shall have the right to terminate this Contract upon written notice to the Contractor which shall set forth the effective date of such termination.

In addition, the County shall have the right to pursue all remedies in law or equity.

**GC-14 CONTRACTOR’S REMEDIES**

If the County has been notified of breach and fails to remedy the breach during the ninety (90) day cure period pursuant to General Condition GC-12, Default, the Contractor shall have the right to terminate this Contract upon not less than thirty (30) days prior written notice to the County, which notice shall set forth the effective date of termination.

Contractor shall have the right to pursue all remedies available in law or equity, in all cases the Contractor’s damages shall be those actual provable damages not to exceed the amount of the Contract as awarded by the Cook County Board of Commissioners less all amounts paid to Contractor; in no event shall Contractor be entitled to any consequential damages. Irrespective of the exercise of remedies hereunder, Contractor shall not disrupt the County’s operations or repossess any component thereof.

**GC-15 DELAYS**

Contractor agrees that no charges or claims for damages shall be made by Contractor for any delays or hindrances from any cause whatsoever during the progress of any portion of this Contract.

**GC-16 MODIFICATIONS AND AMENDMENTS**

The parties may from time to time during the term of this Contract make modifications and amendments to the Contract but only as provided in this section. Such modifications and amendments shall only be made by mutual agreement in writing. Modifications and amendments which individually or cumulatively result in additional cost of $1,000.00 or greater or which extend the term of the Contract by thirty (30) days or more shall not be deemed as authorized without the approval of the Cook County Board of Commissioners. Modifications and amendments which increase cost by less than $1,000.00 or which do not extend the term of the Contract by more than thirty (30) days may only be made with the written approval of the Purchasing Agent.

Subject to the foregoing, the Director of the Using Department may, by written order, make changes with respect to the dates of delivery and places of performance of the Contract, provided that any such changes shall not increase the Contract price or the time required for Contract performance.
Contractor is hereby notified that, except for modifications and amendments which are made in accordance with this Section GC-16, Modifications and Amendments, no County department or employee thereof has authority to make any modification or amendment to this Contract.

GC-17 PATENTS, COPYRIGHTS AND LICENSES

Contractor shall furnish the Director of the Using Department with all licenses required for the County to utilize any software, including firmware or middleware, provided by Contractor as part of the Deliverables. Such licenses shall be clearly marked with a reference to the number of this County Contract. Contractor shall also furnish a copy of such licenses to the Purchasing Agent. Unless otherwise stated in these Contract documents, such licenses shall be perpetual and shall not limit the number of persons who may utilize the software on behalf of the County.

Contractor agrees to hold harmless and indemnify the County, its officers, agents, employees and affiliates from and defend, at its own expense (including reasonable attorneys', accountants' and consultants' fees), any suit or proceeding brought against County based upon a claim that the ownership and/or use of equipment, hardware and software or any part thereof provided to the County or utilized in performing Contractor's services constitutes an infringement of any patent, copyright or license or any other property right.

GC-17 PATENTS, COPYRIGHTS AND LICENSES (CONT.)

In the event the use of any equipment, hardware or software or any part thereof is enjoined, Contractor with all reasonable speed and due diligence shall provide or otherwise secure for County, at the Contractor's election, one of the following: the right to continue use of the equipment, hardware or software; an equivalent system having the Specifications as provided in this Contract; or Contractor shall modify the system or its component parts so that they become non-infringing while performing in a substantially similar manner to the original system, meeting the requirements of this Contract.

GC-18 COMPLIANCE WITH THE LAWS

The Contractor shall observe and comply with all laws, ordinances, regulations and codes of the Federal, State, County and other local government agencies which may in any manner affect the performance of the Contract including, but not limited to, those County Ordinances set forth in the Certifications attached hereto and incorporated herein. Assurance of compliance with this requirement by the Contractor's employees, agents or subcontractors shall be the responsibility of the Contractor.

The Contractor shall secure and pay for all federal, state and local licenses, permits and fees required hereunder.

GC-19 MINORITY AND WOMEN BUSINESS ENTERPRISES

COOK COUNTY ORDINANCE DIVISION 6, SECTION 34-275 - 34-285

I. POLICY AND GOALS

A. It is the policy of the County of Cook to prevent discrimination in the award of or participation in County contracts and to eliminate arbitrary barriers for participation, as both prime and subcontractors, in such contracts by local businesses certified as Minority Business Enterprises (MBE) and Women-owned Business Enterprises (WBE). In furtherance of this policy, the Cook County Board of Commissioners has adopted a Minority- and Women-owned Business Enterprise
Ordinance (the "Ordinance") which establishes a "best efforts" goal of awarding not less than thirty-five (35%) of the annual total dollar amount of professional and consulting service contracts and sole source agreements to certified MBEs and WBEs.

B. A contractor may achieve the contract MBE/WBE participation goals by its status as a MBE or WBE; by entering into a joint venture with one or more MBEs and/or WBEs; by subcontracting a portion of the work to one or more MBEs or WBEs; by entering into a Mentor-Protege Agreement with a MBE or WBE; by the indirect participation of MBEs or WBEs in other aspects of the contractor's business; or by a combination of the foregoing.

C. A contractor's failure to carry out its MBE/WBE commitments in the course of a contractor's performance shall constitute a material breach of the contract, and if such breach is not appropriately cured, may result in the termination of the contract or such other remedy authorized by the Ordinance as the County deems appropriate.

II. REQUIRED SUBMITTALS

Each contractor shall submit with its proposal, a copy of its current internal affirmative action plan. If contractor has no internal affirmative action plan, contractor shall submit a statement stating why contractor has no such plan. C. Contractor's Statement - Use of MBE/WBE Professionals

Each contractor shall submit with its proposal, a statement which discloses how the contractor intends to maximize the use of its MBE/WBE professionals in the course of performing the contract.

III. NON-COMPLIANCE

If the County of Cook determines that the contractor has failed to comply with its contractual commitments or any portion of the Ordinance, it will notify the contractor of such non-compliance and may take any and all appropriate actions as set forth within the Ordinance.
IV. REPORTING/RECORD-KEEPING REQUIREMENTS

The contractor shall comply with the reporting and record-keeping requirements as may be established by the Contract Compliance Administrator. Upon award of a contract, contractor is responsible for acquiring all necessary county reporting and record-keeping forms which will be made available in the Office of Contract Compliance.
